*World History and Geography* California. Dept. of Education, 1994-01-01 This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

Life During Medieval Times Toney Allman, 2013-08 Much of what is known about people's everyday lives in times past comes from artifacts but also from diaries, letters, and other writings. Many important details of life during the Civil War, for instance, can be found in the diaries of women who carried on while their men were at war. In the Living History series, firsthand accounts such as these are combined with thoughtful narrative to offer a rich and vivid portrait of daily life in various times and places in history. A visual chronology, sidebars that feature quotes from people of the period and from historians, selected vocabulary words, source notes, a bibliography for further research, and an index provide additional tools for student researchers. **A History of the Middle Ages, 300-1500** John M. Riddle, 2016-02-25 This clear and comprehensive text covers the Middle Ages from the classical era to the late medieval period. Distinguished historian John Riddle provides a cogent analysis of the rulers, wars, and events—both natural and human—that defined the medieval era. Taking a broad geographical perspective, Riddle includes northern and eastern Europe, Byzantine civilization, and the Islamic states. Each, he convincingly shows, offered values and institutions—religious devotion, toleration and intolerance, laws, ways of thinking, and changing roles of women—that presaged modernity. In addition to traditional topics of pen, sword, and word, the author explores other driving forces such as science, religion, and technology in ways that previous textbooks have not. He also examines such often-overlooked issues as medieval gender roles and medicine and seminal events such as the crusades from the vantage point of both Muslims and eastern and western Christians. In addition to a thorough chronological narrative, the text offers humanizing features to engage students. Each chapter opens with a theme-setting vignette about the lives of ordinary and extraordinary people. The book also introduces students to key controversies and themes in historiography by featuring in each chapter a prominent medieval historian and how his or her ideas have shaped contemporary thinking about the Middle Ages. Richly illustrated with color plates, this lively, engaging book will immerse readers in the medieval world, an era that shaped the foundation for the modern world.
